PROFILE

Motivated and detail-oriented **Frontend Developer** with a strong foundation in core web technologies, including **HTML**, **CSS**, and **JavaScript** programming. Skilled in modern JavaScript library like **React.js**, with a passion for creating responsive and user-friendly web pages and applications.

PROJECTS

Weather App
 HTML | CSS | JavaScript | React

- The **Weather App** is an interactive and user-friendly mobile application designed to provide accurate and real-time **weather updates**.
- Developed using **React.js**, it showcases key frontend development skills, including **API integration** with sources like Weatherapi.com for dynamic temperature, forecasts, and weather conditions.
- The app features a visually appealing interface with **animated weather icons**, customizable **themes** and **geolocation functionality** to deliver location-based weather insights.

Todo List App
HTML | CSS | JavaScript

- The **To-Do List App** is a dynamic and responsive frontend project designed to help users manage their tasks efficiently.
- the app incorporates modern features like **task creation**, **deletion**.
- It offers a seamless user experience with a clean and intuitive interface. This project demonstrates expertise in **frontend development**, **state management**, and creating responsive, **user-centric applications**.
